ENCLOSURE HEATER WITH FAN

CS 030 | 03060.0-01

The high-performance fan heater is designed for uniform temperature control of enclosures and casings to protect against harmful condensation. Designs with integrated thermostat are available. Heating technology: PTC for dynamic response behaviour. Touch-safe for users thanks to touch-safe plastic casing.

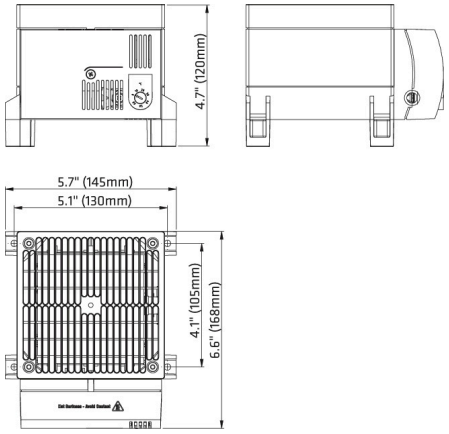

- Versions with integrated thermostat
- Version for screw fixing to the base of the enclosure
- Versions with tamper-proof thermostat
- User protection: touch-safe sheathing
