ENCLOSURE HEATER

CS 060 | 06020.0-00

This is a compact enclosure heater with a PTC heating element for reliable protection against condensation in enclosures and casings. The convection heater is safe to touch thanks to its plastic sheathing and thus protects applications from the effects of heat. This heater is also available as a series with a fixed thermostat (tamper-proof thermostat): CSF 060

- Safe to touch, low surface temperature
- Rail installation on 35 mm DIN rail
- This enclosure heater is designed for continuous operation
- PTC heating element
