STEGOFIX PLUS DEVICE HOLDER

SFP 095 | 09550.0-05

The STEGOFIX PLUS device holder is a flexible alternative to the 35 mm DIN rail. It enables quick and easy installation of small or additional devices that are designed for mounting on DIN rails. The STEGOFIX PLUS is suitable for devices with a clip width of max. 66 mm and offers the right mounting method for almost every application with its versions - screw fixing in 25 mm increments, high-performance adhesive tape and rubberised neodymium magnets.

- Alternative to 35 mm DIN rail
- Simple, flexible installation
- For devices and sockets with DIN rail clip
- Screw fixing
- Self-adhesive tape mounting
- Magnet fixing
