GDT DGA 470 (929 499)

- Original replacement gas discharge tube for DEHNgate
- Powerful due to capability of carrying lightning currents
- Low capacitance for best transmission values

Lightning current carrying replacement gas discharge tube for DEHNgate arresters. High quality with extremely low capacitance.
In case of a higher transmission power (up to 500 W) a 470 V gas discharge tube (Part No. 929 499) can be alternatively mounted into a DEHNgate arrester of Part No. 929 043, 929 045 or 929 057. Observe the rise of the static / dynamic sparkover voltage!

Type	**GDT DGA 470**
Part No.	**929 499**
Static response voltage	470 +-70 V
Lightning impulse current carrying capability (10/350 µs)	5 kA
Design	H 8 x 6 mm
Max. continuous operating voltage (d.c.)	360 V
Max. transmission capacity	500 W
Response voltage at 1 kV/µs	1000 V

Masterdata	
Net weight	1.5 g/pc(s)
GTIN	4013364104129
PU	1 pc(s)
Customs tariff number (Comb. Nomenclature EU)	85363090

We reserve the right to make changes to the design and technology, dimensions, weights and materials in the interests of technical progress. The illustrations are not binding.
