Anybus SST-DN4-PCU

Item number: 1121130007

The Anybus SST-DN4-PCU is a Standard PCI interface card for connecting embedded systems or PCs to DeviceNet or CAN networks. When used on DeviceNet, it can act as a Client (Master) or Server (Slave) on the network. The PCI card is robust and provides interoperable and reliable communication in diverse industrial applications.

Connects computers and embedded systems to DeviceNet or CAN networks

Features and benefits

PCI interface

PCI interface supports high-speed data transmission, ideal for demanding industrial applications.

Use in industrial and standard PCs

PC interface board for fixed installation in desktop or industrial PCs, providing reliable connectivity supporting windows.

Anybus SST-DN4-PCU

General

Net Weight (g)	0.226
Packed Weight (g)	0.226

Identification and Status

Product ID	1121130007

Physical Features

Contains Battery	No
