Anybus SST-DN4-PCU-2

Item number: 1121130005

The Anybus SST-DN4-PCU is a Standard PCI interface card for connecting embedded systems or PCs to DeviceNet or CAN networks. When used on DeviceNet, it can act as a Client (Master) or Server (Slave) on the network. The PCI card is robust and provides interoperable and reliable communication in diverse industrial applications.

Connects computers and embedded systems to DeviceNet or CAN networks

Features and benefits

PCI interface

PCI Express interface supports high-speed data transmission, ideal for demanding industrial applications (complaint with PCI Express v2.0).

Use in industrial and standard PCs

PC interface board for fixed installation in desktop or industrial PCs, providing reliable connectivity supporting windows.
