Anybus-IC CANopen Interface

Item number: AB6004-B

Anybus-IC for CANopen is an older communication interface, launched in 2002, crafted for compact industrial automation devices. It operates independently or with a host microprocessor, offering a full CANopen slave interface in a 32-pin dual in-line housing. With a 5 V 150 mA power supply, it offers seamless integration into a host product.

Features and benefits

Anybus-IC CANopen Interface

General

Net Weight (g)	6
Packed Weight (g)	6
Warranty (years)	12 mån

Identification and Status

Product ID	AB6004-B
Country of Origin	Sweden
HS Code	8517620000
Dual Usage	No
Export Control Classification Number (ECCN)	EAR99

Physical Features

Contains Battery	No
