Ixxat T-Bus connector

Connects multiple CAN Repeaters with backbone bus

Item number: 1.04.0073.00000

The Ixxat T-Bus connector is designed for linking multiple CAN Repeaters with a backbone bus to a central hub. It supports the creation of star and tree network topologies, thereby extending the coverage of the CAN network and simplifying the wiring process.

Features and benefits

Expand networks easily

Connects multiple CAN Repeaters on a DINrail backbone bus, ideal for large-scale installations and flexible network layouts.
