Ixxat CAN Y-cable

Item number: 1.04.0076.00002

The Ixxat CAN Y-cable (2.1 m length) is used to easily loop through CAN or CAN FD networks. Its shielded design and twisted wires ensure minimal interference and reliable data transmission.

Connects CAN/CAN FD components (210 cm, D-Sub 9 plug to socket/plug)

Features and benefits

Dual D-Sub 9 connectivity

Features a 9-pin D-Sub socket to socket and plug design, enabling flexible connections to various devices in the network.

Cable length: 210 cm

This cable has a total length of 210 cm (without connectors: 200 cm). A shorter variant with a total length of 22 cm is also available.

Convenient integration

Features a direct 1-to-1 pin assignment, making connection straightforward.

Ixxat CAN Y-cable

General

Net Weight (g)	260
Packed Weight (g)	260

Identification and Status

Product ID	1.04.0076.00002
Country of Origin	China
HS Code	8544429090
Dual Usage	No
Export Control Classification Number (ECCN)	EAR99

Physical Features

Contains Battery	No

Certifications and Standards

WEEE Category	IT and telecommunications equipment
