H	11.0
H1	4.0
H2	6.75
Metric	M32
Diameter	39.5
Cable diameter (mm)	12-24
Hole diameter (mm)	32.5
Pack quantity	25
Item no.	CES32

Description: Simple grommet manufactured in a rubber-like material. The installation does not require tools. The "pushout" membrane is a permanent seal until it is penetrated by a cable or pipe. It is equipped with a sock that closes tight around the cable and allows for it to be moved around like a "joy-stick" in the opening without endangering the IP, so it works extremely well with cables passing through at an angle. Suitable for holes in materials of 0.5 to 4.5 mm thickness.

Material: TPE (thermoplastic elastomer), halogen free.

Temperature resistance: -50 ºC to +125 ºC.

Finish: RAL 7035.

Protection: IP 67.

The rubber cable gland is easy to mount, and cables and pipes can be pulled through at an angle easily without tools, ensuring that the enclosure's protection degree is maintained.
