PRODUCT INFORMATION SHEET

Brushless Compact Drill Kit Impact Screwdriver 40Nm 18V

Product description

The kit includes a 40 Nm brushless hammer drill (HT2E264-0DD), a 2 Ah battery (HT2E239-A20) and a 4 A charger (HT2E242-C40). The 2 Ah battery charges to 80% capacity in just 30 minutes, minimizing downtime.

Hammer drill driver 45 Nm

- The compact and lightweight design makes it easy to work in tight spaces and reduces fatigue during long use.
- The impact function allows you to drill not only in wood, metal or plastics, but also in masonry and concrete (up to 10 mm).
- The two-speed gearbox and 20+1+1 torque settings allow you to flexibly adjust the parameters to the material and the job.
- A high impact frequency of 0-6750/24000 IPM accelerates drilling in hard substrates.
- Infinitely variable speed control in the trigger switch and additional electronic speed control ensure full precision.
- The 13 mm metal drill chuck allows drill bits and bits to be mounted over a wide range.
- A powerful LED effectively illuminates the work area.
- A bit holder and strap keep accessories organized, so they're always close at hand.
- The soft handle and rubber bumpers increase the comfort of work and protect the tool from mechanical damage.
- The Blau Power brushless motor provides more power, durability and longer runtime.
- Advanced electronics constantly monitor and optimize the engine's performance, resulting in efficiency and battery protection.
- The metal gear guarantees precise operation and high wear resistance.
- Thermal protection protects the device from overheating.
- Powered by OneAccuSystem 18V, it provides full mobility and compatibility with a wide range of power tools.
- A 3-year warranty with Door to Door Service reduces downtime and ensures reliability.

2 Ah battery (HT2E239-A20)

- Lightweight and compact – ensures comfortable work in all conditions.
- Li-Ion technology guarantees high energy efficiency, durability and reliability.
- Advanced electronics protect against overheating, overcharging and short circuits.
- Rubber bumpers and protections protect the cells from damage and moisture.
- The charge level indicator allows you to control the energy status.

- Can operate in a wide temperature range from -18°C to +50°C.
- Weight: 0.42 kg.

4A Charger (HT2E242-C40)

- Fast and safe charging – 2 Ah battery up to 80% in 30 minutes.
- Voltage and temperature monitoring electronics ensure a long cell life.
- Overheating, overcharging and short-circuit protection increases safety.
- LED indicators indicate the charging status and battery level.
- Compatible with OneAccuSystem 18V batteries in various capacities.

Characteristics

- Compact and lightweight 40 Nm hammer drill driver for working in tight spaces.
- Two-speed transmission, 20+1+1 torque settings and stepless speed control.
- 13mm metal handle, strong LED and soft grip for working comfort.
- 2 Ah battery with 80% fast charging in 30 min and charge indicator.
- 4 A charger with overheating and short circuit protection.
- OneAccuSystem 18V power supply – compatible with a wide range of tools.
- 3 years Door to Door warranty upon registration.
